A trip around the world in sixty days was once considered a noteworthy achievement.

The Cincinnati Enquirer

Makes the circuit every day and tells its readers every morning of the many things encountered on the journey.

The well-informed man reads The Enquirer Regularly

Because—

It prints all the news while it is fresh. It pays particular attention to proceedings in Congress and State Legislatures at home and the conduct of nations abroad.

It is in close touch with the heart of the Commercial World and chronicles daily developments of interest to the business man.

It makes a specialty of clean sports, and devotees of baseball and other out-door athletics look to it as authority on sporting matters.

Its advertising columns are the show place of the universe, where merchants, great and small, proffer their many wares, and where everything one wants is portrayed.

It is an essential part of the well-equipped office, club and home, useful to every member of the business, social and private family.

Telephone Operating

EFFICIENT TELEPHONE SERVICE is critically dependent upon good telephone operating. A telephone plant may be properly designed to meet every traffic requirement. It may be well constructed and maintained. But unless it is operated by a competent force, well organized and well trained, the service will be slow and inefficient.

EFFICIENT TELEPHONE OPERATING requires systematic instruction and thorough preliminary training of the operating force. A telephone operator properly taught is more efficient than one who learns by observing the work of others. Recognition of this fact led to the adoption of standard rules and a regular course of study in them.

OPERATORS must be girls of natural intelligence, who can speak distinctly and write clearly. They must have good health, good eyesight, good hearing and a fair education. Not all of the applicants for positions are accepted, but those who pass are at once put on the pay roll.

SECONDS MARK TIME IN TELEPHONE OPERATING. The public desires the most efficient telephone service that can be rendered. That it receives such a service from the Bell Company is indicated by the following representative statistics showing the average time elements of the local traffic, as shown by recent tests:

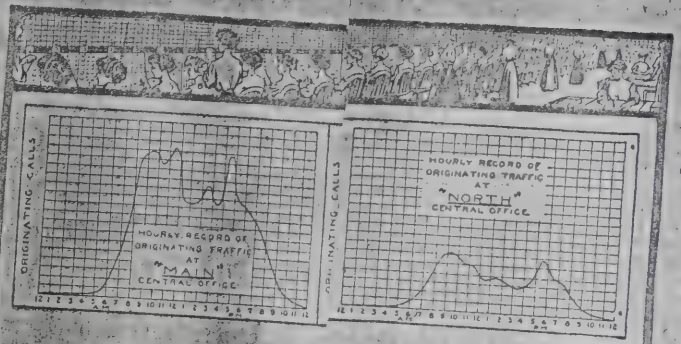
Average time required for operator to answer a call from a calling subscriber	3.4 seconds
Average time required for operator to connect with and start ringing called subscriber	11.5 seconds
Average time required for subscribers to answer the telephone	12.4 seconds
Average time required to disconnect lines after conversation is completed	3.6 seconds

THE TELEPHONE OPERATOR'S WORK is complex and she must be prepared for every contingency that may arise. She must know the proper routing for any call that may be made, and must start each call along the proper channel without an instant's hesitation.

MAKING CALL

Central Union Telephone Company

ANSWERING CALL



Our Busy Hours

IT IS UNFORTUNATE—FOR US—that a telephone subscriber sees nothing, when getting service, but himself and one telephone instrument. He doesn't see the other hundreds or thousands of subscribers and he gets no idea of the work we are really doing and the violent and uncertain changes in the number of calls given us at various hours of the day.

WE HAVE RUSHES OF BUSINESS just as the street cars, the stores and the Post Offices do. Yet a man who will patiently wait in line two or three minutes to be allowed to deposit his money in someone's Bank will become "disgusted with such service" if he has to wait in line fifteen seconds to get an Operator to connect him with his residence that he may inform them he "will be a little late to dinner."

THE ABOVE DIAGRAMS show graphically not only how the "load" of calls varies from hour to hour, but also how the curve for one office may differ from the curve of another office even on the same day. Unfortunately they do not show how violently the load varies from one five minute period to the next, nor how one day's load varies from another's even in the same office.

IN EACH OF OUR EXCHANGES we count the calls handled each hour of one day each month, and distribute our operating forces accordingly, so as to give uniformly good service at all hours of the day.

BUT WE CANNOT ALWAYS ANTICIPATE balloon ascensions, sudden storms, fire blockades and other emergencies which give us unusual loads to carry, and at such rush periods we ask your patient indulgence.

Central Union Telephone Company

How to Make A Long Distance Call

CALL CENTRAL by removing the telephone receiver from its hook.

WHEN THE OPERATOR ANSWERS by saying "Number," ask her for "Long Distance."

WHEN THE "LONG DISTANCE" OPERATOR ANSWERS, give her your own telephone number, your name and the telephone number—or the name and address—of the person with whom you wish to be connected, as follows, speaking slowly and distinctly:

"This is Main, one, two, three; Mr. 'A.' talking.
"I wish to talk with any one at Main, seven, eight, nine,
Pittsburgh, Pa.; (or,)
"I wish to speak to Mr. 'B.' of the firm of 'B. & C.' at
Pittsburgh, Pa. If he is not there, I will talk with Mr.
'C.' "(or) "if he is not there, please leave word and call
me when he comes in."

REMAIN NEAR THE TELEPHONE after having placed a Long Distance call. If you have to go out before the call is completed leave word just when you expect to return.

DON'T LOSE YOUR INCOMING CALLS, and the business they represent, by allowing your office boy or clerks to fail to notify you of them. You might as well allow them to throw away your incoming mail unopened. Therefore, if "Long Distance" requests that you call as soon as you return, please do so.

APPOINTMENTS TO TALK AT A SPECIFIED TIME will be made without additional charge, other than for the actual messenger service involved, if any. This feature of our service will often be found of great convenience.

IF YOUR CORRESPONDENT HAS NO TELEPHONE, and if you so desire, a Messenger will be sent to ask him to go to the nearest Public Pay Station. The expense for such Messenger Service will be charged to your telephone, but may be collected at the distant end instead, if acceptable to the called party.

CHARGES ON "LONG DISTANCE" CALLS can likewise be collected at the distant end if the called party agrees to such an arrangement. If you desire a call to be sent "collect," you should so state at the time you first give the call to "Long Distance."

Good Looks, like Good Pictures May be had at Small Cost

There are many who think they can't get artistic pictures in colors for 15c a piece. They are mistaken. Witness these pictures by popular artists, and with an art store value of $1.50 to $2.50. Price only 15c (see offer).

Then again there are many who think they can't get a good face cream unless French made and costing several dollars. They, too, are mistaken. Witness Pompeian at only 50c.

So we are continually finding something new under the sun" after all.

Good Looks at 1c per Day

At a cost of less than 1c a day several million men and women are "looking their best" through the aid of Pompeian Massage Cream. Moreover, it is so easy to apply, so refreshing in its effects, so cleansing and so beneficial to the skin, that one soon looks forward to each Pompeian massage as a true pleasure rather than a duty.

A clear, clean, fresh-looking skin is a good asset in business or society. Pompeian gives those results. Pompeian is rubbed on the face, well into the pores and then rubbed out. Nothing is left on the skin, It brings out hidden pore dirt that causes blackheads and other blemishes. Pompeian, through its hygienic massage action, stimulates the muscles of the face, thus imparting a healthy, natural glow. "Don't envy a good complexion; use Pompeian and have one." Trial jar sent for 6c. coin or stamps. Use coupon. You may order trial jar, or pictures, or both.

POMPEIAN

Each "Pompeian Beauty" is by a high-priced artist, and represents a type of woman whom Pompeian Massage Cream helps to make more beautiful by imparting a natural, fresh youthful complexion. *No advertising on the front; only the artist's name plate.*

Pompeian Beauty *(A)* by Turner. Size 17 x 12 Ins. Turner's "Pompeian Beauty" smiles straight at you. She is irresistible with her feminine softness of contour and bloom of healthy happiness. Art value $1.50 to $2.50. Price 15 cents.

Pompeian Beauty *(B)* by Warde Traver. Size 19 x 12 Ins. This exquisite profile of Traver's typical American girl makes hardened bachelors exclaim: "If I could only meet a queen like that," while women enthuse: "If I could only have a complexion like hers?" Art value $1.50 to $2.50. Price 15 cents.

Our Guarantee If you are not satisfied that each copy of any "Pompeian Beauty" has an actual art store value of from $1.50 to $2.50, or if for any reason you are disappointed, we will return your money.

NOTE—The handsome frames are only printed (but in colors) on pictures.

THE POMPEIAN MFG. CO., 190 Prospect St., Cleveland, O.

Gentlemen: Under the letters (or a letter) in the spaces below I have placed figures (or a figure) to show the quantity I wish of one or more of the 2 "Pompeian Beauties." I am enclosing 15c (stamps or money) for each picture ordered.
